Subject: FW: Major Source 2 Area Source (MM2A) Workgroup: Analytical Blueprint Waiver Request

Martha,

Here's my first attempt at the email for John to send to Patrick about the AB waiver request. I'll also respond to the workgroup chair to let her know she should invite our AA to the Options Selection and copy me as the workgroup member. Let me know if you have questions or need anything else. Thanks.

We received a waiver request for the Analytic Blueprint on the NESHAP Amendment: General Provisions for Once In Always In with requested response by 8/24/18. This rule was originally a Tier 3 rule, but OAQPS has agreed to raise that to a Tier 2. Because the change to Tier 2 was made mid-stream, there are some ADP milestones that OAQPS is just now addressing. OECA has been fully engaged on the workgroup since the beginning, and the workgroup chair provided the workgroup a draft plan for the proposal for review in May 2018 that we believe could effectively meet the requirement for an Analytic Blueprint. We've received a waiver request for the AB and recommend agreeing to the request. Please advise if you have questions or would like a more detailed briefing on the issue. Thanks.

Subject: Major Source 2 Area Source (MM2A) Workgroup: Analytical Blueprint Waiver Request

Dear ADP Workgroup Team Members,

As we discussed with you in the last Workgroup Meeting on 8/9/2018, we had received a request to up-Tier the MM2A proposal to Tier 2. As we discussed in our last meeting we will need to complete a few additional activities to meet ADP requirements for a Tier 2 rule. We appreciate your continued support in meeting the ADP requirements for a Tier 2 rule.

To ensure we can meet the current schedule for the Proposal we are requesting the WG to waive the preparation of the analytical blueprint. We believe we have met this requirement by providing a comprehensive review of the draft plan for the proposal titled "National Emission Standards for Hazardous Pollutants: General Provisions" to the workgroup in May 2018. The draft plan included key policy areas to be addressed in the action and analyses to support the action. The draft plan was also reviewed and approved by senior management during the same time period.

We created an individual waiver form for the for each primary member of the workgroup to waive the preparation of the "Analytical Blueprint". On the MM2A SharePoint site we saved the waiver forms for your review and completion.

Link to the Blueprint waiver form folder:

https://usepa.sharepoint.com/:f:/r/sites/OAR_Custom/MM2A/Shared%20Documents/ADP%20Milestones%20and%20Forms/Blueprint%20Waiver%20Form?csf=1

Please note that we must submit a complete form for all primary members of the workgroup. Please take a moment to review the form over the next few days and either complete the form online (in SharePoint) or upload a signed version to the same folder (either procedure is acceptable). Please complete the form NLT August 24, 2018.

If you have any questions or comments, please reach out to Elineth or Debra to discuss. We anticipate having additional workgroup meetings (beyond those currently scheduled) to keep you up-to-date on any new developments and to discuss your review of the draft Proposal.

Best Regards to all and thank you for all your hard work!
Elineth and Debra
